Profile

A results-driven Laravel developer with experience in building scalable web applications, developing RESTful APIs, and optimizing database performance. Skilled in Laravel, with expertise in modern web development best practices. Proficient in integrating third-party services, enhancing UI/UX with Bootstrap and Tailwind CSS, and writing secure, maintainable code. Passionate about problem-solving and delivering high-quality solutions that align with business and technical goals.

Professional Experience

Software Developer, *Young Minds Creation (P) Ltd*

04/2024 – present
Kathmandu, Nepal

- Write well-structured and efficient code that adheres to company standards.
- Design and develop RESTful APIs to enable seamless communication between the mobile application and backend services.
- Design and manage databases using MySQL.
- Participate in requirements collection and code review meetings with project managers and senior developers.
- Perform unit testing and integration testing to ensure code quality.
- Debug and resolve issues during the development phase.

Internship, *KTM Coders PVT. LTD*

05/2023 – 08/2023
Kathmandu, Nepal

Backend Developer Intern (Laravel)

- Participated in Agile development processes.
- Developed RESTful APIs.
- Managed MySQL databases.
- Upgraded systems to the latest Laravel version.
- Collaborated with senior team members, contributing to project development and gaining valuable insights.

Projects

- **Doctor Appointment Booking System:** Developed a web-based platform for scheduling and managing doctor appointments. Implemented features such as patient registration, doctor availability management, appointment booking, and notifications. Used Laravel for the backend, Tailwind CSS and JavaScript for the frontend, and integrated a calendar-based scheduling system to streamline appointments.
- **Document Management System for Office:** Built a system to store, organize, and manage office documents efficiently. Implemented role-based access control, document versioning, and secure file storage. Developed features for tracking incoming and outgoing documents, enabling better workflow management and document accountability. Provided advanced search and retrieval functionality to improve document handling efficiency.
- **Health Monitor:** Developed a web application for tracking and analyzing health metrics such as blood pressure, heart rate, and BMI. Integrated user dashboards, data visualization, and automated health reports. Focused on user-friendly design and real-time data tracking to help users monitor their health effectively.

Education

Bachelor Of Computer Application, *Kantipur Clity College*

University: Purbanchal University

Relevant Coursework: Web Development, Database Management, Software Engineering, Data Structures & Algorithms

04/2021 – present

Putalisadak,
Kathmandu, Nepal

High School, *Noble Academy*

Science (Physical Science)

01/2017 – 12/2019

Kathmandu, Nepal

Skills

Technical Skills

- **Languages & Frameworks:** Laravel, Django REST Framework (DRF), NestJS (Node.js Framework), PHP, Python, JavaScript
- **Frontend:** HTML, CSS, Bootstrap, Tailwind CSS
- **Database:** MySQL
- **API Development:** RESTful APIs, Third-party API integration (e.g., Slack)
- **Version Control:** Git, Bitbucket
- **Testing:** Unit Testing, Integration Testing
- **Software Development:** MVC Architecture, Agile

Soft Skills

- Problem-Solving & Debugging
- Team Collaboration & Communication
- Time Management & Adaptability
- Writing Clean & Maintainable Code

Achievements

Topped 1st and 5th semesters at Kantipur City College
